GOMEZ WILLING BOMB THROWER FOR MARINES AT WORK IN TO LAND 'FRISCO

Telegraphs Head Cuban Army
to Let Americans Guard
Foreign Property

ARMS ORDERED FROM U. S. PERPETRATOR NOT KNOWN

Not Enough on Hand to Equip
Volunteers Battle Is Ex-
pected Today

HAVANA, May 31.—President Gomez tonight telegraphed General Montecagudo, the commander-in-chief of the Cuban army, who is at the scene of the hostilities in the province of Oriente, stating that the general might permit American marines to land on Cuban soil to guard foreign property. The dispatch added that the Cuban forces then might retire from guarding such places and devote themselves to pursuing the insurgents.

Interest in Havana today centered on the question whether the United States gunboat Paducah would land marines at Daigueri to protect the property of the Spanish-American Iron Co. This question overshadowed completely the reported occurrences from the theater of hostilities.

4 Guards Hold Rebels in Check.

American legation today received advice from Daigueri that the plant of the iron company had been attacked, but that its assailants were held in check by 40 guards, who later were reinforced by 100 other men. This combined force drove off the insurgents, and on the arrival of the Paducah the fighting was over and apparently there was no necessity for expelling the aid of American marines.

Later in the day, Colonel Marti, chief of staff of the Cuban army, and Lieutenant Colonel Consegura sailed from Santiago on the gunboat Hauyer for Daigueri to explain to the commander of the Paducah the situation on shore and to inform him that there was no necessity for landing American forces.

Tonight however, President Capo consented to the landing of marines.

There was great excitement this evening in Havana when several newspapers issued extra editions announcing that a battle had taken place not far from Santiago in which many rebels had been killed by the fire of the Cuban artillery. The government tonight said there had been no battle, but that a collision had taken place between national and rebel forces in which the former's artillery was brought into play, apparently with good effect. The extent of the casualties, it was announced, was unknown.

Many Plantations Unprotected. General Montecagudo, commander-in-chief of the army, still is busy in Oriente province disposing of his forces for a decisive movement against the enemy. This is expected to take place tomorrow. Meanwhile his army continues to suffer serious depletion by reason of the necessity of furnishing guards for foreign property. Many plantations remain unprotected and many depredations by rebels are reported. The purpose of these appears to be to secure arms, ammunition, food and horses.

The Ponpoo Mangatez company today demanded protection for its mines at Cuero and General Montecagudo im-

REFUSES RECEIVERSHIP
D. L. AND N. RAILWAY

DENVER, May 31.—An application for a receivership of the Denver, Larimer & Northwestern railroad, which was filed in the federal court this morning, was denied this afternoon by Judge Robert E. Doherty. W. W. Caldwell, chairman of the board of directors of the road, who was elected a couple of days ago upon the resignation of several directors as the result of a factional fight, made the application. The court held that the conduct of the road's affairs did not necessitate a receivership and that he could not appoint one unless a mortgage or judgment creditor of a large amount enters a petition.

The action was a friendly one, initiated by Doherty, he said, to conserve the best interests of the road. He understood that the opposing faction intended to ask for a receivership and wished to circumvent their plans.

The floating indebtedness of the company is \$450,000. Garwood prob-ably will now try to have some of the larger creditors petition for a receiver-ship.

Mexico's petition alleged that there is a receivership had so injured the credit of the road that it could not pay the principal of either floating or bonded indebtedness.

The directors who resigned were F. Briggs and T. C. Henry of Denver, B. Patton of Golden, Colo., and D. Rothwidler of Bison, Kan.

The road is built as far as Greeley, Colo., from Denver. Its two ultimate points are the Wyoming coal fields in connection with the Pacific Northwest.

WHIRLWIND'S END OVERWELMS DAYTON

All Industry Will Be Stopped
Three Minutes While Fu-
neral Is Being Held

DAYTON, O., May 31.—"I am overwhelmed by the death of brother Wilbur," said Orville Wright. "In his first public statement tonight, Heretofore he has denied himself to all callers except a few friends."

Orville's face bears the marks of much suffering and the co-pilot of the aeroplane is broken in spirit at the loss sustained just when the brothers were at the floodtide of fortune.

"Wilbur was more than most brothers," he continued. "We have worked together and played together since I was old enough to know anything, and his death has completely unnerved me."

"We were getting our factory in the condition when this blow came and he was so proud of it. His death is a terrible blow and will have a big effect on our organization. I cannot say at this time where his place as president of our company will be filled, have given no thought to business these last few days."

Dayton Is Overwhelmed.

Dayton is overwhelmed by the loss of her most distinguished citizen. In the modest home of his preacher-father lies the body of Wilbur Wright. Hundreds of floral tributes fill the modest rooms and there is an air of melancholy in the neighborhood, where the two famous brothers spent so many years.

The burial will be tomorrow. By the side of his mother in Woodland cemetery, unadorned except by the simplest of monuments, the remains of her gifted boy will be laid.

The body will lie in state from 10 o'clock until 1. Public funeral services will be held at 3 o'clock, in charge of the Rev. Marion F. Wilson. The burial in Woodland will be private.

All Business Will Be Stopped.

The pallbearers have not yet been selected, but arrangements may result in the selection of two representatives of the "Ten Boys Club," the only organization of which the deceased was an active member, two from the ranks of the Wright company's employees and two from the membership of the Dayton Aero club.

All industry will be stopped within the limits of Dayton while the funeral is being held, not a wheel turning for three minutes beginning at 3:30 o'clock.

FOREIGN REFUGEES REACH JUAREZ FROM CHIHUAHUA

Report Situation in Letter City as
Critical—Plundering Expected
Momentarily

JUAREZ, Mex., May 31.—Seventy-five German and 50 American refugees, principally from Boston, Philadelphia and other eastern cities, as well as negroes from southern winter resorts. They said they would fight to the finish, even though it might be necessary to close some of the places.

May Extend to Other Cities.

Union officials said they had exhausted only one-third of their power in this city; that addition to the banks were recorded hourly, negotiations were on looking to the strike of other employees, and that they expected to bring about practically a complete tie-up of the hotel and restaurant business in the city, if necessary to extend the movement to other places.

The first notable demonstration of the strike occurred late tonight, when about 400 men marched up Fifth avenue and halted in front of Delmonico's, shouting epithets at the waiters there who refused to join them. Policemen closed the mob and it moved along to other hotels where similar tactics were used. Later a mass meeting was held in an opera house where the stage was plastered with fiery epigrams.

Foreigners are in fear of trouble because of official statements suggesting that the rebel leaders might not be able to restrain their men in antisocial outbreaks on account of the widespread resentment against the United States for permitting alleged recruiting of forces by the Mexican federal government on American territory.

The strict enforcement of the embargo on exports of arms and ammunition into rebel territory is also responsible for antipathy towards the United States.

Press reports from Chihuahua which must pass the censor made no mention tonight of abnormal conditions in the city of Chihuahua, but the interruption of train service is believed to have alarmed many of the residents there who feared they might be deemed by an attacking force of federales from the south under General Ignacio Alvarado, a demoralized rebel army within the confines of the city.

Reports of looting in Chihuahua were current in Juarez and El Paso today and apprehension for the safety of Americans was only partially relieved by the arrival of the special train.

Col. Pascual Orozco, Sr., who has been in command of the Juarez garrison, left today to join his son, the military chief of the revolution in Chihuahua.

SEATTLE, Wash., May 31.—The second death resulting from accidents at The Meadows, when J. Clifford Turpin's aeroplane dashed into the grand stand occurred tonight. Raymond Chapman, 10 years of age, dying of a fractured skull. All the other injured will recover.

MEXICO CITY, May 31.—The indemnity of \$100,000 pesos (\$1,550,000 gold) agreed upon some months ago by the Mexican foreign office and representatives of the Chinese government from the slaughter of more than 300 Chinese in Torreón during the Madero revolution, will not be paid July 1, as provided for in the protocol. The senate today postponed consideration of the subject until the next September session.

PIKES PEAK REGION DAY TICKETS READY

Question of Closing Stores June 5 Will
Not be Urged by Special Committee

This matter of closing the stores next Wednesday, Pikes Peak Region day, will be left entirely to the individual action of the various merchants, as the result of a meeting of the merchants, in the Chamber of Commerce rooms, last night.

The special committee, which has been soliciting the merchants to close their places of business and make the day a holiday, will not further urge that this be done. As far as possible the townspeople will observe the day, as last year, and the greater majority of the merchants have announced their intentions of closing.

Tickets for the various trips will be placed on sale at 1 o'clock this afternoon, in front of the vacant store-rooms in the Burns theater building. Reservations can be made by telephoning the Chamber of Commerce

rooms, Main 336, or by calling at the rooms up until 11 o'clock this morning. In order that the sale of tickets may be facilitated, it is requested that all persons order by the number of the combination, and that they specify in the case of the Colorado Creek trip, the Colorado Midland, the Cog road and the Crystal Park trips, what trains they desire, as tickets will be good only on the train indicated on ticket.

Tickets to Seven Falls, North Cheyenne canon, Garden of the Gods, Cave of the Winds, Cliff Dwellers, Indians, may be used at any time of the day.

In order that persons may get the particular combinations desired, it is urged that all secure tickets at the earliest possible hour. The capacity of many of the trips is limited, and no more tickets will be sold than accommodations can be provided for.

Last year, tickets for several of the trips were exhausted within a few hours after the opening of the sale.

WAITERS TALK OF EXTENDING STRIKE

Thousand More Men Join
Walkout in New York—Are
Becoming Disorderly

NEW YORK, May 31.—The addition of 1,000 strikers to the ranks bringing the total to 4,000, and a demonstration marked with disorder on Fifth avenue were tonight's features of the effort of the International Hotel Workers union to enforce recognition of the union and to obtain increases in wages and improvement in working conditions for employees in New York kitchens and dining-rooms.

The 30 hotels and restaurants affected by the strike successfully concealed their embarrassment in some instances, but in others the dining-rooms had to be closed and restaurant service was concentrated in a single

More Walkouts Today.

"Dante's Inferno—A kitchen cook is dropping dead from heat and over-work," read one.

"A dollar fine for a smile, 82 cents a day to support a family," was another.

A list of new places where strikes were declared tonight was read and received with cheers. The list included the Park avenue, the Majestic, the Herald Square, Hofbrau House, Moquin's two places, and the two Bushyanku restaurants.

A large number of other places were on the list for a strike, but it was declared that the walkouts were held off until tomorrow.

Employers Refuse to
Attend Conference With
Striking Dock Workers

LONDON, May 31.—There were no developments today in the strike of the dock workers beyond the refusal of the employers to attend a joint conference called by the government in an effort to end the controversy, and the submission by the government of new proposals for the consideration of the strikers.

The government seemingly is determined not to repeat the mistake made during the last coal strike of allowing matters to drift in the hope of arriving at a settlement by mutual agreement between the contending parties. If when parliament reassembles next Tuesday any hesitation remains at accepting the minister's proposals, steps will be taken to provide the needed machinery of a conciliation board by legislation.

CONSIDERS SLOAN'S CASE

WASHINGTON, May 31.—The Senate in executive session today again considered the nomination of Richard E. Sloan as United States district judge for Arizona but took no action. The session was devoted mainly to a speech by Senator Smith of Arizona, who discussed Sloan's relations with the Atchison, Topeka and Santa Fe railroad.

metimes, and by other informal methods.

Other Methods Necessary.

Can this impractical method of selecting the nominees for the presidency could not long endure in the face of the fact that the people generally were divided into two opposing political parties of approximately equal strength. This division into two parties caused party contests, and party contests cannot be confined without organization. It was generally recognized that some means must be provided for the government of the parties. The Democrats were willing enough, however, at that time, to permit General Jackson to direct their affairs, and so established party lines, first, under the name of orderly government.

The suggestion soon to be adopted by almost all came not from either of the principal parties, but from the more radical and outspoken organization of the anti-Masons. The dawn of the era of the national convention was at hand.

GOMEZ WILLING BOMB THROWER AI WORK IN 'FRISCO

Telegraphs Head Cuban Army to Let Americans Guard Foreign Property

ARMS ORDERED FROM U. S. PERPETRATOR NOT KNOWN

Not Enough on Hand to Equip Volunteers Battle Is Expected Today

HAVANA, May 31.—President Gomez tonight telegraphed General Montagudo, the commander-in-chief of the Cuban army, who is at the scene of the hostilities in the province of Oriente, stating that the general might permit American marines to land on Cuban soil to guard foreign property. The dispatch added that the Cuban forces then might retire from guarding such places and devote themselves to pursuing the insurgents.

Interest in Havana today centered on the question whether the United States gunboat Paducah would land marines at Paducah to protect the property of the Spanish-American Iron Co. This question overshadowed completely the reported occurrences from the theater of hostilities.

40 Guards Hold Rebels in Check.

American legation today received advice from Paducah that the plant of the iron company had been attacked, but that its assailants were held in check by 40 guards, who later were reinforced by 100 other men. This combined force drove off the insurgents, and on the arrival of the Paducah the fighting was over and apparently there was no necessity for extending the aid of American marines.

Later in the day, Colonel Marti, chief of staff of the Cuban army, and Lieutenant Colonel Conseguera sailed from Santiago on the gunboat Haciety for Paducah to explain to the commander of the Paducah the situation on shore and to inform him that there was no necessity for landing American forces.

Tonight, however, President Gomez assented to the landing of marines.

There was great excitement this evening in Havana when several newspapers issued extra editions announcing that a battle had taken place not far from Santiago in which many rebels had been killed by the fire of the Cuban artillery. The government tonight said there had been no battle, but that a collision had taken place between national and rebel forces in which the former's artillery was brought into play apparently with good effect. The result of the casualties, it was announced, was unknown.

Many Plantations Unprotected.

General Montagudo, commander-in-chief of the army, still is busy in Oriente province disposing of his forces for a decisive movement against the enemy. This is expected to take place tomorrow. Meanwhile, his army continues to suffer serious depletion by reason of the necessity of furnishing guards for foreign property. Many plantations remain unprotected, and many depredations by rebels are reported. The purpose of these appears to be to seize arms, ammunition, food and horses.

The Poporo Mangatez company today demanded protection for its mines at Cienfuegos and General Montagudo im-

REFUSES RECEIVERSHIP
D. L. AND N. RAILWAY

DENVER, May 31.—An application for a receivership of the Denver, Laramie & Northwestern railroad, which was filed in the federal court this morning, was denied this afternoon by Judge Robert E. Lewis. W. W. Garwood, chairman of the board of directors of the road, who was elected a couple of days ago upon the resignation of several directors as the result of a financial fight, made the application. The court held that the condition of the road's affairs did not constitute a receivership and that he could not appoint one unless a mortgage or judgment creditor of a large amount enters a petition.

The action was a friendly one, instituted by Garwood, he said, to conserve the best interests of the road. He understood that the opposing faction intended to ask for a receivership and failed to circumvent their plans.

The floating indebtedness of the company is \$450,000. Garwood probably will now try to have some of the larger creditors petition for a receivership.

Garwood's petition alleged that debts of a receivership had so injured the credit of the road that it could not pay the principal of either floating or bonded indebtedness. The directors who resigned were F. J. Briggs and T. C. Henry of Denver, R. P. Pitton of Golden, Colo., and D. Rothchild of Bison, Kan.

The road is built as far as Greeley, Colo., from Denver. Its two ultimate points are the Wyoming coal fields and connection with the Pacific coast.

WILBUR WRIGHT'S END OVERWELMS DAYTON

All Industry Will Be Stopped Three Minutes While Funeral Is Being Held

DAYTON, O., May 31.—"I am overwhelmed by the death of brother Wilbur," said Orville Wright, in his first public statement tonight. Heretofore he has denied himself to all callers except a few friends.

Orville's face bears the marks of much suffering and the coincidence of the aeroplane is broken in spirit at the loss sustained just when the brothers were at the floodtide of fortune.

"Wilbur was more than most brothers," he continued. "We have worked together and played together since I was old enough to know anything, and his death has completely unnerved me."

"We were getting our factory in fine condition when this blow came and he was so proud of it. His death is a terrible blow and will have a big effect on our organization. I cannot say at this time how his place as president of our company will be filled. I have given no thought to business these last few days."

Dayton Is Overwhelmed.

Dayton is overwhelmed by the loss of her most distinguished citizen. In the modest home of his preacher-father, lies the body of Wilbur Wright. Hundreds of local tributes fill the memorial rooms and there is an air of melancholy in the neighborhood, where the two famous brothers spent so many years.

The burial will be tomorrow. On the side of his mother in Woodland cemetery, unadorned except by the simplest of monuments, the remains of her gifted boy will be laid.

The body will be in state from 10 o'clock until 1. Public funeral services will be held at 3 o'clock, in charge of the Rev. Maurice E. Wilson. The burial in Woodland will be private.

All Business Will Be Stopped.

The pallbearers have not yet been selected, but arrangements may result in the selection of two representatives of the "Ten Boys Club," the only organization of which the deceased was an active member, two from the ranks of two from the membership of the Dayton Aero club.

All industry will be stopped within the limits of Dayton while the funeral is being held, not a wheel turning for three minutes beginning at 3:30 o'clock.

FOREIGN REFUGEES REACH JAUREZ FROM CHIHUAHUA

Report Situation in Latter City as Critical—Plundering Expected Momentarily

JALAPEZ, Mex., May 31.—Seventy-five German and 50 American refugees, mostly women and children, arrived here tonight on a special train from Chihuahua, the first, in nearly three days. They declared that a means of leaving Mexico had been provided by the rebels only after inconsistent demands for it had been made by Marion Letcher, the American consul.

Recently the storeroom has been cut into small miscellaneous brokerage offices, many of which are unadanted, and all of which were vacant at the time of the explosion. The bomb was tossed onto the roof of the storeroom and tore an open hole, but did no other damage.

ATLANTIC CITY OFFICIAL HELD ON BRIBERY CHARGE

ATLANTIC CITY, N. J., May 31.—City councilman Harry F. Dougherty, arrested on a charge of having accepted a bribe of \$500 for voting for the passage of an ordinance providing for a concrete walk along the beach, designed to cost \$1,000,000 or more, was given a hearing today. He pleaded not guilty and was held in \$5,000 bail for the grand jury.

The hearing was expected to be sensational, but few developments were brought out.

William F. Wahl, a citizen who made the complaint against Dougherty, said he obtained the information from William J. Burns, the detective. Mr. Burns testified that he had been summoned here to investigate alleged corrupt acts. He began his investigation in April, 1911, and continued until August, when he evolved a "fake" board walk scheme to catch certain officials. One of his operatives, posing as "Mr. Harris," a New York contractor, became familiar with councilmen, offered several of them \$5,000 each to pass the ordinance providing for the board walk, and paid \$500 apiece on account. Burns said these councilmen were informed of the trap into which they had fallen. According to his story, all but one of them confessed and returned the bribe money. Dougherty, he said, refused to give back the money or to confess, and was arrested.

MEXICO WILL DELAY THE PAYING CHINESE INDEMNITY

MEXICO CITY, May 31.—The indemnity of \$1,000,000 pesos, (\$1,500,000 gold) agreed upon some months ago by the Mexican foreign office and representatives of the Chinese government from the slaughter of more than 300 Chinese in Torreon during the Madero revolution, will not be paid July 1, as provided for in the protocol. The Senate today postponed consideration of the subject until the next September session.

PIKE'S PEAK REGION DAY TICKETS READY

Question of Closing Stores June 5 Will Not be Urged by Special Committee

The master of closing stores next Wednesday, Pikes Peak region day, will be left entirely to the discretion of the various merchants, as the result of a meeting of the merchants in the Chamber of Commerce rooms last night.

The special committee working has been soliciting the merchants to close their places of business and make the day a holiday, will not further urge that this be done. As far as possible, the people will observe the day, as last year, and the greater majority of the merchants have announced their intentions of closing.

Tickets for the various trains will be on sale at 1 o'clock this afternoon, in front of the vacant storerooms in the Burns theater building. Reservations may be made by telephoning the Chamber of Commerce rooms. Main 333, or by calling at the rooms up until 11 o'clock this morning.

In order that the sale of tickets may be facilitated, it is requested that all persons order by the number of the combination, and that they sign in the case of the triplets crossing the Colorado Mountain, the Big road and the Crystal peak runs, what trains they desire, as tickets will be sold only on the train indicated on ticket.

Tickets to Seven Falls, North Cheyenne canon, Garden of the Gods, Cave of the Winds, Cliff Dwellers, Royal Gorge, will be sold at any time of the day.

In order that persons may get the particular combinations desired, it is urged that all secure tickets at the earliest possible hour. The capacity of many of the trips is limited, and no more tickets will be sold than accommodations can be provided for.

Last year, tickets for sale of the various trips exhausted within a few hours after the opening of the sales.

The hotel men were busy tonight mobilizing an army of substitutes, principally from Boston, Philadelphia, and other eastern cities, as well as negroes from southern winter resorts. They said they would fight to the finish, even though it might be necessary to close some of the places.

The 50 hotels and restaurants affected by the strike successfully concealed their embarrassment in some instances, but in others the dining-rooms had to be closed and restaurant service was concentrated in a single room.

The first notable denunciation of the strike occurred late tonight when about 100 men marched up Fifth avenue and halted in front of Telmonians, sporting emporiums. All the waiters there who refused to join them, police men covered the man and it moved along to other hotels where it stopped to the very end. Later in mass meeting was held in an open space where the stage was placed with flags flying.

SAYS HARRIMAN PROVIDED BRIDE

NEW NAMES BROUGHT INTO DARROW CASE

Sensations Follow in Rapid Succession at Trial of Mc-

Namaras Attorney

LOS ANGELES, Cal., May 31.—Los Harriman, late candidate for mayor of Los Angeles on the Socialist ticket, has again taken the bar at the trial of Charles E. Darrow for alleged jury bribing, and heard himself accused of being the man who had procured 1910 trial with the alleged bribe.

Later in the day he heard the same witness, Bert H. Franklin, testifying for the state, quote Darrow as saying to him:

"You mention my name, I want you also to mention what you know about Joe Harriman."

Sensations were crowded thick and fast into today's sessions of the trial following each other in such rapid succession that the entire day might be described as one continual thrill, culminating in the beginning of a rapid examination of the state's principal witness, chief counsel Rogers for the defense.

Harriman's testimony conducted examination today was at times dramatic in the extreme, the witness departing from his apparent willingness to tell all he knew, to a seeming loquacity.

The trial followed the usual pattern of the defense's examination of the state's principal witness, chief counsel Rogers for the defense.

FOR BEATING HUSBAND

BINGHAMPTON, N. Y., May 31.—Mrs.

Mary Davis of this city is believed to

be the first suffragist in the United

States given a preliminary sentence

for bushwhacking. She was arrested

on a warrant obtained by Mr.

Dolan who complained that his filly

she gave him a sound beating.

Judge Albert H. Hopkins found

her guilty and declared that if women

DISCUSSION IS ENDED

(Continued From Page One)

of the national Roosevelt administration.

At the headquarters of the Republican "national" committee, contestants from the following districts were added today to the list of 294 contests made public yesterday making a total of 226 contested seats in the convention to date:

State.	District.	Contested.
Missouri	4-5	2
North Carolina	9-8	2
Tennessee	9-8	2
Texas	At large and 3-8-14-14	2
Alaska	At large	2

ARRANGE FOR EMERGENCY HOSPITALS

Arrangements were completed today for the installation of the emergency hospital for use during the convention. There will be 25 beds in the hospital which is in the Colorado armory and the special room has been fitted as a surgical room with full equipment. The hospital will be in charge of some of the most expert physicians of the city aided by a corps of Red Cross nurses.

The medical staff was appointed today by Chairman E. W. Upham of the Chicago convention committee. John Barrett, director general of the Pan-American union at Washington, wired Chairman Upham asking tickets for the Latin-American diplomatic corps.

The request was turned over to Colonel New who said that every effort would be made to provide seats for all members of the diplomatic corps who applied in person.

T. R. KILLS COMPROMISE RUMOR

NEW YORK, May 31.—Ex-President Roosevelt said today that the reports that he intended to go to Chicago convention are untrue.

"Pure fake," said Colonel Roosevelt, "of course, I may alter my plans, but at present I haven't any intention of going to Chicago."

The suggestion of a compromise between the Taft and the Roosevelt forces at the Ohio convention which is to elect six delegates at large to Chicago, was denounced to day by Colonel Roosevelt. [The colonel sent this telegram to Walter E. Brown, his Ohio manager at Columbus.]

I have just seen the telegram sent by Mr. Taft to Mr. Vorys about a compromise in Ohio. Until I saw this telegram I had never heard a suggestion that there should be any compromise and I of course assumed that any such suggestion came from the Taft forces. In the first place I would not consent to a compromise anyhow; and in the next place we carried Ohio by over 30,000 on the popular primary."

Col. Chauncy Dewey, Roosevelt's Illinois manager and Medill McCormick of Chicago one of the leaders of the Roosevelt campaign, came to New York today to confer with Colonel Roosevelt. Both Mr. Dewey and Mr. McCormick said that there was no truth in reports of serious dissension among the Illinois delegates elected for Colonel Roosevelt.

CHINESE PRESIDENT TO BUILD UP ARMY

NEW YORK, May 31.—A statement

from Yuan Shih Kai just received here from Peking outlines the Chinese leader's plan for building up an army which will be the equal of that of Germany. His plan is based on universal conscription.

"In this Twentieth century," says Yuan, "a newly constituted state must needs possess a strong army to maintain its independence. China is in a different position from England, set in an encompassing sea or from America, alone on its sunburned continent. The military system of our republic must be modeled on great continental powers like Germany or France."

A nation's existence is inseparably connected with the army. An army can make or destroy a nation. If the army possesses discipline the standard of education is necessarily high. But if the army is composed of units bound together at random, then the very meaning of the word education is not understood. No one recognizes his part and lot in the country, neither does he realize that the money for his pay is the people's life blood. Such an army will inevitably disobey orders and prey upon its countrymen. The principles of humanity are then obliterated and opportunity is afforded for foreign aggression."

WORLDWIDE AUTHORITY ON ZOOLOGY IS DEAD

CAMBRIDGE, Mass., May 31.—The death of Dr. William McMichael Woodworth of Harvard university and an authority on zoology of worldwide reputation, was announced today.

Dr. Woodworth was the grandson of Samuel Woodworth, author of "The Old Indian Bucket." He was born in San Francisco, 48 years ago. His father was Seline Woodworth, who fought with Admiral Farragut at Mobile and New Orleans and who retired with the rank of commodore.

Commodore Woodworth was one of the California pioneers and was president of the famous vigilantes.

Dr. Woodworth was Alexander Agassiz's personal assistant and accompanied him on all his important tours of research in the south seas, West Indies and Africa.

Dr. Woodworth was the author of several valuable monographs on departments in zoology in which he was a recognized international authority.

FUND FOR MEMORIAL TO MAJOR BUTT AND F. MILLET

WASHINGTON, May 31.—President Taft, members of the diplomatic corps in Washington and many high government officials have contributed to a fund of several thousand dollars completed today, which is to be used to erect a memorial to Major Andrew W. Butt, personal aide to two presidents, and to Frank D. Millet, a chairman of the National Fire Commission, two Washington victims of the Titanic disaster.

Raising the fund quickly was undertaken by Col. D. H. Miller, secretary to President Taft, and Col. Spencer T. Tracy, chief aide to the president.

The memorial, put the sum of \$14,000, was authorized by Congress. Authorization by Congress will be necessary, but there is no doubt among friends of the two men that it will be granted.

The site near the White House was selected because of Major Butt's long association with the White House for many years and also because of Mr. Millet's interest in the public grounds of the capitol.

GRAZING BILL MAY RESULT IN A LIVELY CONTENTION

WASHINGTON, May 31.—Prospects for lively contention between the forestry bureau and the interior department as to which shall be selected to administer the provisions of a national grazing law, should one be passed, promise a situation of interest to the people of the west. Incidentally, this situation must work to delay the enactment of the Lever grazing bill, any similar measure.

Secretary Fisher told the house committee his department was best adapted to administer the forest grazing law while former Forester General L. L. Leavitt intended before the committee that the forestry bureau was the only logical department which could perform the work. Members of the house public lands committee favor deferring all action on the Lever measure until the two departments can reach an agreement.

Representative Taylor of Colorado has a resolution he will introduce directing that the Lever bill, as well as all important land bills now before congress, be sent to the governors of various public lands states with the request that they be laid before the state legislatures and these bodies memorialize congress as to what action should be taken.

MUST RECORD BIRTHS AND DEATHS OCCURRING IN AIR

NEW YORK, May 31.—The international congress of the laws of aviation which is in session in Paris has adopted a regulation for the guidance of an aviator on whose machine a birth or death occurs. The new rule of international law is as follows:

"In the event of a birth or death occurring on an air craft, the pilot must enter the event in a log book and notify the authorities the first place he lands."

NEW KIND OF THERMOMETER

KANSAS CITY, Mo., May 31.—A thermometer a seven feet high will be installed in the Lincoln Boulevard Methodist church here to record the warmth with which the congregation pledges money for the church. Among the pledges money for the church Sunday collection of which begins this week. The instrument will stand beside the pastor on the pulpit.

The mercury can reach a maximum of 300°. It takes a donation of \$100 to raise the fluid one degree. The pastor raises the mercury by a device at the back of the instrument. The Rev. E. Atchison Smith, pastor of the church originated the idea.

KILLED BY OWN AUTO

JAMAICA, N. Y., May 31.—Herbert J. Hoffman, a local business man, is dead here from injuries received Sunday when his own automobile ran over him. He was out driving when the engine developed trouble. As he got out of the car, another automobile struck him against it. This struck them in the chest and the wheels passed over him causing internal injuries.

DEDICATE NEW ELKS HOME

DENVER, May 31.—Hundreds of visitors from the B. P. O. E. lodges of the state yesterday helped the Denver Lodge of Elks dedicate its new building in Fountain and California streets. The building cost \$300,000, its furnishings \$100,000 and the ground is valued at \$20,000.

Delegates from Boulder, Fort Collins, Aspin, Durango, Fort Morgan, Salida and Colorado Springs attended.

Attorney-General of State Approves Gubernatorial Candidate's Views of Protecting Delegation

DENVER, May 31.—The conservative Republicans here have adopted their plan for the holding of a state convention in this city on Wednesday evening to effect a call to a gathering to bar national Republians from the Democratic national convention.

During the discussion of the question, two Washington victims of the Titanic disaster.

The progressive Republicans have been assured that the national convention in this city on Wednesday evening will be held without protection of its rights.

It is reported in all the papers that the conservative Republicans are in a majority of persons suspected of being in the meeting.

SCARCITY OF ARMS

The government continues to receive many orders to issue volunteer companies, but difficulty in securing sufficient arms for them, orders have been issued in the U. S. Army Stores to supply arms to be shipped to the frontier immediately.

Arrange for Emergency Hospitals. Arrangements were completed today for the installation of the emergency hospital for use during the convention. There will be 25 cots in the hospital which is in the Coliseum annex and the special room has been fitted as a surgical room with full equipment. The hospital will be in charge of some of the most expert physicians of the city aided by a corps of Red Cross nurses. The medical staff was appointed today by Chairman F. W. Upham of the Chicago convention committee. John Barrett, director general of the Pan-American union at Washington wired Chairman Upham asking tickets for the Latin-American diplomatic corps. The request was turned over to Colonel New who said that every effort would be made to provide seats for all members of the diplomatic corps who applied in person.

SUFFRAGIST TO JAIL FOR BEATING HUSBAND

BINGHAMTON, N. Y., May 31.—Mrs. Mary Daboll of this city is believed to be the first suffragist in the United States given a penitentiary sentence for husband beating. She was arrested on a warrant obtained by Mr. Daboll who complained that in a fit of rage she gave him a sound beating. City Judge Albert Hotchkiss found her guilty and declared that if women deserved men's prerogatives they should also have men's punishments when found guilty of violation of law. He always dealt severely with wife beaters, he said, and accordingly he sentenced her to three months in the penitentiary.

immediately ordered a detachment of troops to that town.

Skirmishing continues between government troops and insurgents, without important results. It is reported in all the provinces except Oriente but numerous arrests are being made of persons suspected of complicity in the uprising.

Scarcity of Arms

The government continues to receive many offers to raise volunteer corps but difficulty is experienced in finding arms for them. Ordinance has been placed in the United States in quantity of arms to be shipped to Havana immediately. A regiment of 500 volunteers under Colonel Padua is ready to leave Havana Sunday morning for General Montenegro's army.

A rumor was current in Havana to-night that the negroes in the capital intend to rise but apparently there is no basis for the rumor and no extraordinary police protection has been ordered.

President Gomez today sent a message to congress transmitting the correspondence between the Havana and Washington governments upon the uprising.

The message of Gomez covered the history of the revolt and the means taken by the government to suppress it. The message said the government had been successful in all the provinces except Oriente. It transmitted the copy of a dispatch sent to General Montenegro by the commandant of the American naval station at Guantanamo acquainting General Montenegro of his intention to send the marines of the gunboat Padua to Daupar to protect American property there.

Announced in the message was General Montenegro's reply that he had arranged for the protection of Daupar with ample forces that he could not consent to the landing of American marines without the acquiescence of his government and protesting against the proposed action as entirely unnecessary.

WASHINGTON, May 31.—Admiral Sidney A. Staunton will be placed on the retired list on account of age June 7. He now is the naval member of the special commission which is visiting European capitals to secure representations of the foreign armies and navies at the approaching Panama-Pacific exposition. Admiral Staunton is a native of New York and was an officer of the flagship New York in the battle at Santiago.

Representative Taylor of Colorado has a resolution he will introduce directing that the Lever bill as well as all important land bills now before Congress be sent to the governors of various public lands states, with the request that they be laid before the state legislatures and these bodies memorialize congress as to what action should be taken.

DR. HOUGHTON INJURED

NEW YORK, May 31.—Dr. George C. Houghton, rector of The Little Church Around the Corner, is under the care of surgeons here today suffering from a severe dislocation of the right shoulder. His injury was received in a fall from a chair on which he was standing, trying to reach a book on the shelf of his study. His curate found him lying helpless on the floor. He will be several weeks before Dr. Houghton regains the use of his arm.

It was at this point that Darrow mentioned Hairman's name and Davis thought it was a very clever thing to say, said the witness.

I said it was a poor statement for him to make implying another party, said Franklin. Then I told Mr. Davis if he would assure me that I would not get over two years in the penitentiary, I would plead guilty and say nothing.

This practically concluded Franklin's direct examination.

Chief Counsel Rogers of the defense then began his cross examination with question concerning Franklin's past relations with Mr. Lockwood.

The black rhinoceros was probably the only specimen of the African animal kingdom which Colonel Roosevelt did not succeed in taking on his historic hunting trip.

THE ANNUAL FIRE LOSS

THE per capita loss caused by fire in the United States is \$3.00 a year. In the six leading countries of Europe it is 33 cents a year, or a little more than one-tenth as much. These figures state in concise form one of the big problems before the American people.

The National Fire Protection Association met in Chicago last week to consider this problem. Mr. Powell Evans, chairman of the Philadelphia Commission on Fire Prevention, put the case in these words:

"The ten-year average of fire losses in the United States and Canada up to 1898 was about \$200,000,000. For 1907 the loss was \$216,000,000, for 1908, \$241,000,000, for 1909, \$204,000,000, and for 1910, \$234,000,000. For 1910 we had a good Christmas present in having \$30,000,000 more burned up than in the year before. Insurance authorities average the loss at \$250,000,000 a year, and they have ample authority for doing so. The United States government, in the geodetic survey bureau, went into the question fully and brought the amount up to \$400,000,000 total cost, including fire loss and the cost of fire departments and patrols. I believe this estimate is correct, though \$260,000,000 is quite enough for me, for it means \$600 per minute for every minute in the twenty-four hours and for every day in the year, and every hour we burn a certain percentage of human life. We have recently had excellent examples of the average, here, and in Cincinnati, and in Chicago, and a sad average it is. We have another thing which many shrewd business men do not realize. We have interruption of business. A man who pays 1 per cent insurance is paying on the risk, so measured, of his building burning. If his building burns he loses something further through the interruption of his business, a loss which has bankrupted many a merchant. All these things travel together."

If the people of the country will generally unite in studying and working out this problem I feel safe in estimating that in ten years more than two-thirds of the current fire loss in the United States will disappear and upwards of \$200,000,000 of wealth now absolutely and ruthlessly destroyed will annually be saved—a satisfactory interest on \$5,000,000,000 added to our national assets, and countless lives and untold suffering saved."

Judged by American standards European fire-fighting methods are antiquated. Their apparatus is far less efficient and

their organization does not compare with that of the fire companies in almost any American city. The sums spent for the maintenance of fire companies is correspondingly less. But when it comes to the actual attainment of the all-important end—namely, the prevention of fire loss—Europe beats America ten to one.

The reason lies chiefly in the greater care used in the construction of buildings. In American cities owners of costly buildings spend large sums to make them fire-proof, but for every such structure there are hundreds which are mere fire traps. American cities grow rapidly, and owners of real estate do not as a rule care to incur the cost of fireproof construction when changing conditions may make it desirable to replace the building with another in 10 or 15 years. They figure that it is cheaper to pay high insurance rates and take the chance of being burned out. But in Europe incombustible material is generally used even in cheaply constructed buildings, and people are also more careful about starting fires.

Five hundred dollars a minute for every minute in the year is a big price to pay for fires, and according to Mr. Evans this is a conservative estimate. Clearly it is time for the whole nation to give more serious consideration to this problem.

SOCIALISTS SHOULD SUPPORT STEWART

THE socialists as represented by the Socialist party aim at the socialization of all the "machinery of production and distribution" which, by their definition, includes railroads, telegraphs, mills, factories and mines. That is, they want all the various utilities and industries to be owned by the government, or perhaps they would rather say by the people, as the postoffices, schools and parks are now. Furthermore, they want democratic control of the means of production and distribution after they are socialized. By this they mean the extension of popular rule in industry as well as in politics and the doing away with business and bureaucracy. They include in their

demands the initiative, the referendum and the recall.

We do not believe in the universal collective ownership of industrial concerns as advocated by the socialists, but we agree with them in the desirability of the extension of popular rule in political matters and in the regulation of all public utilities by the people acting through competent officers and commissions. We are against political bossism which simply means the control of legislation by the various business interests rather than by the people at large. In this matter the Progressives and the Socialists stand together. They both

want to free Colorado and the country in general from the thrall of political bosses who are under the control of the great corporations.

The Socialists realize that they cannot carry Colorado. In the platform recently adopted by them in El Paso county they frankly state that if their candidates are elected they do not expect them to accomplish any Socialist wonders. That they do not expect their candidates to be elected is evinced by the fact that they have nominated for district judges and for district attorney men who are not members of the bar and therefore are not eligible for those offices.

On the other hand the Progressive Republicans, under the leadership of Philip B. Stewart, have an excellent chance of electing their candidates next November. If they do, much of the less drastic legislation desired by the Socialists will undoubtedly be put through. We can expect to have a public utility commission similar to those that have done so much good work in Wisconsin and New York in the regulation of the railroads and other public service corporations of those states. We will no doubt also have laws providing for presidential primaries and for the direct election of United States senators and, in general, laws that will enable the people to govern themselves in fact as well as in theory.

If the Socialists really want to improve the political condition of the people of Colorado they cannot do better than to aid and vote for Mr. Stewart and the other Progressive Republicans. By so doing they will really accomplish some good and not throw away their votes as they will if they vote for the Socialist candidates.

KING OF THE DANES.

From the Kansas City Journal.

Frederick of Denmark appears to have been a ruler curiously unlike the other monarchs of the world, though it must be admitted that kings and emperors and czars are steadily improving as a class. They no longer cling so tenaciously, at least in public, to the shreds of the doctrine of the divine right of kings. What they really believe about it is not known, but those who assert their belief in such a doctrine too loudly are rather likely to be laughed at, and if there is one person in the world whose serenity is disturbed by a derisive guffaw it is the man in purple.

Frederick of Denmark seems to have been quite the most democratic and lovable of all the European sovereigns, for he stood the acid test of ne'er-miss to his people. He was that rare kind of monarch who is every inch a king because he is every inch a man, and it doesn't matter very much by what formidable or what simple title such a person is called. He may be found on a throne or in the street, in business or in religion, in statesmanship or in the humble, holy round of the family circle. There is a royalty in humanity which is the true divinity, whether it beget about a king or a wayfarer. It is always gratifying to meet up with one of these princely men, and as the world of thrones and scepters goes, it is still more gratifying, because rarer, to meet up with a manly king like Frederick of Denmark. The royal circle can, for its own sake, poorly spare such a one, and it may be said of him as of that other royal Dane, that upon him "every god did seem to set his seal to give the world assurance of a man."

THE CAUSE OF THE TROUBLE.

From the Pittsburgh Dispatch.

It is significant that there is virtual agreement between the representatives of the Madero government and the Gómez revolutionists at Washington regarding one cause for the trouble in Mexico. Dr. Huerta, representing Gómez and Orozco, says the revolution is due to the failure of Madero to make good his promises to abolish slaves and peasants. General Cárdenas, the Mexican ambassador, while placing emphasis on the political factor, the disappointed ambitions of Madero's rivals and the clamor

for office, admits that the manifestations of dis-

languor in districts where the native Indian population abounds and where outbreaks are almost always due to problems of a social and agrarian character."

This coincidence of opinion confirms the statement made early in the revolution by an American long resident in Mexico that the whole trouble is due to the exploitation of the laboring classes, who had been buoyed up with the hope of an industrial revolution with the advent of Madero, only to be bitterly disappointed. In this state of mind they fell an easy prey to the first advocate of revolution that came along. Believing themselves cheated by the Madero administration and impotent or hopeless of relief, they turned to Orozco and Gómez with the hope of getting it through them.

Meanwhile the constant disturbance which is compelling the government to center all its efforts on self-preservation is preventing any real advance being made toward amelioration of the social and agrarian condition, which must be improved before there is any hope of permanent peace in Mexico.

Kicks and Compliments

By WALT MASON.

I said to butcher Jones: "Your mutton is mostly bones, and your mildewed beef fills my soul with grief, and your fish is hard as stones. Your chickens are on the blink, and your lard and your bacon stink; so I'll cross the street for a bunch of meat—they sell better goods, I think." The butcher he said: "Your verse, I'm certain, could be no worse; it's enough to make a dead man break the doors from the village hearse. The man who would write such rhymes should lie in the jail betimes with fetters to bind his wrists behind to keep him from further crimes." I said to this Jones next day: "I've come my account to pay; you are selling meat that can not be beat, and a tribute should come your way." The butcher he said to me: "I read all your rhymes and glee—they are out of sight and I hope you'll write till the end of eternity." You'll find things about the same; you climb on neighbor's frame, and he'll squat you back with an ugly thwack and show he can play that game. You hand him a nice bouquet, and the scheme will surely pay; for he'll rake around till a rose he's found, and the same he'll pass your way.

In rash moments of anger after a sweetheart's quarrel many a man insists he does not care if he were never to see her face again. But, bitterness of this kind is never lasting. All at once he finds himself confronted with the thought that "I have said goodbye to her, but how can we part?" A man never realizes until such a moment arrives how near and how dear his sweetheart is to him.

The world is full of women fairer than she, perhaps, but there is not one of them that could fill the niche in his heart as she has done, she who was the sweater part of his better self. Friends may be sympathetic; relatives more than kind; but do what they will they cannot bring to him the great bount of forgetfulness; fill the void in his aching breast, which once thrilled with such sweet joy.

Blessed are the peacemakers who resolve to bring them together again, for they are performing the services of angels on earth. This is the time when the mutual friend can prove himself invaluable. A heart to heart talk with the girl usually results in gaining her consent to see her lover, and thus to talk the matter over. There are few women so deeply angered, but what a little judicious reasoning will soften the heart and bring them to the realization that it took two to make a quarrel, and it will take but two to make up.

There is not one woman in 10,000 who can resist when she hears these appealing words of her lover's "How can we part?"

Pride and stubbornness have no place in love's court. Each shall meet the other half way if they would not have life of loneliness and regret. The sweetest trait in a woman's nature is to forget and forgive. Go to her in person without delay; renew your appeal over and over again if need be. Persistence will be sure to win in life's battle. Show your sweetheart that you are in earnest. Be manly, loving, and considerate. Ask her over and over again for a truthful answer to the question "How can we part?" True love never yet ran smooth.

How to Have Successful Parties

By RUTH CAMERON.

Why, oh why aren't my parties ever real successes, like Gretchen's?" wailed a dejected hostess the morning after she had given a little function. I work myself most to death to have everything just right, and still I know people don't enjoy themselves as they do at Gretchen's house, and she never takes half the trouble I do."

We all know that there are some homes where we always seem to have a good time, no matter how simple the fare or how commonplace the entertainment provided, and others where we do not have half the pleasure even though the fare may be sumptuous and the entertainment most elaborate.

Now, why is it? What makes one party a success and another flat?

Well, for one thing, I think this dejected hostess put her finger on her chief mistake when she said she worked herself almost to death to make her party a success. Doubtless that was the very reason why it was nearer a failure. A spic and span house, an elaborate

program and the most delicious fare will not countervail the depressing influence of a hostess who tries vainly to hide her anxiety and her weariness or a forced gaiety. Remember that you yourself are a part of your entertainment. The original idea of independence, an idea which has been buried under the claptrap we have piled upon it, is that your guests come to see you. If you can bring cordiality and good cheer and genuine gaiety to your guests, you will go a long way towards making your party a success. And you cannot do that if your feet ache and your nerves are frazzled, and you are thoroughly weary and dispirited because of your over-anxious efforts to have everything just so.

Again, don't forget that it's people that make a good time! Unintelligent, more than things. In other words, the prime requisite of a jolly party is a congenial crowd.

Get a congenial crowd together; just let them talk, and feed them nothing but lemonade and cake, and they'll have a better time than an un-congenial gathering fed with the most delicious fare and offered the most elaborate entertainment.

Be sure to have at least one of those folks who make things go" on your list. Everybody has at least one or two such in his acquaintance. They may not be any cleverer or more popular than other people, but they happen to have this gift. Look over your list of guests to see if you have invited any of these folks, and if you haven't, get hold of one of them.

Be sure to have some game to begin with which will break up the ice, no matter how silly it is, so that it dissipates the slight stiffness which even a crowd of congenial people are apt to feel when they have been bidden to a formal gathering.

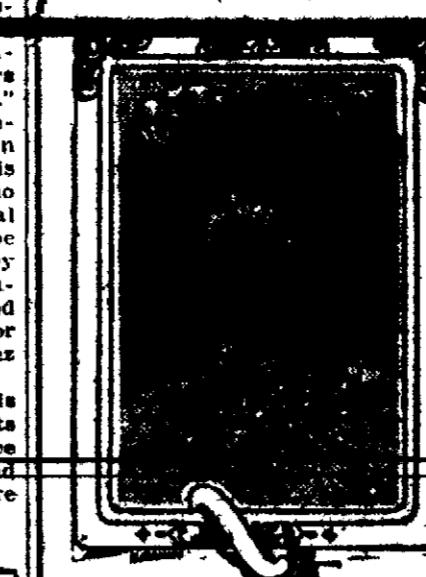

And that brings me to my last suggestion. Don't have your party a formal gathering. To my mind, formality is the death blow to enjoyment, and I am delighted to realize that the formal party of the last decade is rapidly disappearing. Eleventh-hour invitations and telephone invitations are the order of

Twentieth century hospitality and for my part I hope the pendulum will never swing back in the other direction.

PEGGY

Peggy, I don't think there is any danger of your husband loving you too much. I think the better plan would be to tell your husband that you think your love is too sacred a thing to be paraded in public. I don't think there is any danger of his knowing that you are the one he loves best.

was the famous "two-thirds" rule,

which, ever since, has persisted in Democratic conventions, and upon which may hinge the result of the convention to be held in Baltimore this month. That rule reads: "Resolved, That the delegates from each state in this convention be entitled to as many votes in selecting a suitable person for the office of vice president as such state will be entitled to in the electoral college for the choice of this officer, equally to the apportionment bill recently passed by the congress of the United States; and that two-thirds of the whole number of votes given be required for nomination and on all questions connected therewith."

Some delegates inquired "two-thirds" instead of a "majority" was demanded.

William R. King of Alabama, who reported the resolution, said that the only reason was that a nomination by two-thirds would carry more moral weight with the people. From this simple explanation the convention accepted the resolution, and on the first ballot, Van Buren was nominated by 208 votes as against 49 for Philip P. Barbour of Virginia and 36 for Richard M. Johnson of Kentucky. This was the innocent beginning of the "two-thirds" rule which was to be the undoing of Martin Van Buren, the man for whose benefit it was originated.

And then, in the next paragraph, in commenting on what an anti-Jackson paper said about the convention, the editor said: "The Chronicle has sunk itself so low in the slough of abuse and vulgarity that it no longer deserves the notice of any honest man. Let it wallow in its own filth."

Perhaps the most significant thing that the first party feeling was running high at that time is proved by the fact that the *Democrat*—Democrat and Commercial Advertiser, a Jackson paper, said of the Democratic convention: "It is truly animating to the advocates of correct principles to witness the extent of the convention now in session (sic) in our city." **NO ACTION CONCERNING BILL FOR DAMAGED TREES**

No action has yet been taken by the Colorado Springs Light, Heat and Power company regarding the bill from the city forester for damages done to trees by escaping gas from leaky mains. The bill rendered was for \$2,110.

This is the first action ever taken by the city, it is said, in an effort to collect damages arising from this source. Some trees in the center parking on Nevada Avenue, which are declared to have been killed a year or so ago, in the same manner as the 23 shade trees uprooted in City Forester McRae's bill, were removed at the time by the company, it is stated.

WILL START SUIT TO CLASSIFY FAIR FUND

DENVER, May 31.—Thomas Hoffmire, a Pueblo attorney, today notified M. A. Ladd, state auditor, that he intended starting suit to determine the classification of the appropriation of \$20,000 made by the last legislature for the state fair. The auditor and other officials hold that the appropriation is in the fourth class and cannot be paid.

HAPPENINGS IN THE WORLD OF SPORT

White Hope and Jack
Are Getting in Shape

By W. H. LANIGAN.

Special to The Gazette.
EAST LAS VEGAS, N. M., May 31.—Jack Johnson's unexpectedly prompt arrival on the battleground is a big "kick." The champion himself was prodded to pooh-pooh the Flynn date when it was first made; he is keen on Flynn and has him doped as a gent who may cross his path and run him out of the spotlight.

Johnson's arrival is just the boost the big, pugnacious performances needed. Contracting to be on the battleground no later than June 4, Lil' Artha assumed Jack Curley when that clause to be inserted in the articles that he doubted if he would abide it.

"That's all foolishness," said the dusky one. "All I will need will be about two weeks' work. You know I want to be on hand when I open my cafe in Chicago, May 15, and I wouldn't miss them big auto races in Indianapolis for nothing."

Curley called the turn. He told Johnson that he would chirp a different tune along in early May. Sure enough, Curley's chatter came true. Reading about all the work Flynn was doing, right on the ground, the weight of the fighting fireman was putting on: the way the palaface's camp was being organized and the way the experts were warming up to the show, made Johnson sit up and take notice. As early as May 1 Lil' Artha gave up leading the hurrah life and started doing both roadwork and gymnasium work, boxing included, in Chicago. Even when at work Johnson announced that he would not hit out for Las Vegas before the first week in June. So when he hove into view May 26, accompanied by a full staff of trainers, it showed conclusively that Lil' Artha had become thoroughly imbued with the idea that the Flynn match was going to be a most exciting one, after all.

Johnson was happily fixed in his training camp within 12 hours after his arrival. Incidentally, he started his work along at once. He took a 10-mile drill on the road his first day in town. Jack got down to work in earnest his second day in Las Vegas. His daily program embraces a two hours' run in the forenoon and a like run in the afternoon. The big black was also quick to start his training work, going. Jack has a platform, 8x30, located in the back yard of his dwelling in "Old Town," the moniker galled on Las Vegas proper. Every afternoon Johnson has it out hammer and tongs style with Howard Morrow and George DeBry, his two massive white sparring partners. Cutler was

over the jumps with Johnson in Reno. DeBry is a newcomer in the champion's camp. Both lads are built on the same lines as Flynn, which probably forms a very good reason why they are filling their positions.

Cutter and DeBry declare they stand no chance of as much as tapping Lil' Artha other than once a week, and openly state that they feel sorry for Flynn on the Fourth.

"I cannot for the life of me figure how Jim can win the big bout," remarked Cutler the other afternoon. "Now to win he must hit Johnson and I cannot see him doing it."

Confidence certainly reigns in the Johnson camp. Jack's co-laborers are plainly happy over the way their star is hustling. They figure Johnson will be as good July 4 as he ever was in his life.

As for Flynn, the long shot, he is hard at it at his training camp at Montezuma, under the watchful eye of Tommy Ryan, the man who helped make Jeffries. Flynn is rounding into wonderful condition and continues to claim what he has always claimed, to wit, that he "will knock the big dings off on the Fourth." There is nothing to it but that the fighting fireman is cocksure he is Lil' Artha's master.

GIBBONS ADDS ANOTHER VICTORY TO HIS STRING

CLEVELAND, O., May 31.—Mike Gibbons tonight proved too clever for "Knockout" Brennan of Buffalo, whom he met in a 10-round contest. The St. Paul man's punches had more behind them, too, and were landed with telling frequency.

At times a finishing blow seemed imminent, but Brennan would manage to clinch and save himself. At the end of the bout the referee announced Gibbons the winner.

The men fought at 145 pounds.

Faculty and Seniors Will Mix Monday

By IRVIN BRUCE.

The senior faculty game, which was billed for Washburn Field yesterday afternoon, has been postponed until Monday afternoon, owing to the bad weather.

The seniors claim that the game was called off owing to the fact that Principal Hill, the Ed Walsh, of the faculty, was not in the best of condition to twirl against the dignified seniors.

It was rumored in senior circles yesterday that the demon finger was bothered with a sore arm, which he contracted at the faculty training camp at Hot Springs, and that this was the reason for the faculty calling off the game off.

The coming contest is attracting a great deal of interest among the students, for the underclassmen are very anxious to see certain members of the faculty team in action on a diamond.

The faculty are boasting that they have the best team ever, and are confident that the seniors are equally confident that they can show the faculty up when it comes to handling a baseball.

Four members of the Terrors' championship team are slated to play with the seniors, but they will be compelled to play in different positions from those which they held on the Terror team.

His pitching arm has gone back on him and he will never attempt to hurl them across the plate again.

Although Young has not appeared on the mound this season, the thousands of fans in this city, who had often witnessed him in games which he would be able to come around all right, but "CY" himself saw that the end of his baseball career was at hand.

His arm went back on him during the spring practice.

When the Braves went away on the western trip he was left at home.

He showed signs of coming back, however, and was ordered to join the team at Pittsburgh, where he notified President Ward that he had quit the game.

"It was a good old game. I am sorry to leave it, too. My best days were spent on the diamond. I have enough money to last me throughout the rest of my life, but I hate to leave the game," said Young before he left the team.

Young was born in Gilmore, Ohio, March 22, 1887, and began playing professional ball in 1890 with the Canton, Ohio, team of the Tri-State League. In the same year he was purchased by the Cleveland National team for \$500 and remained with it until 1898, when he joined the St. Louis Nationals.

"CY" stayed with St. Louis until 1901, when the American League invaded National league territory. Then he jumped to the Boston team of the Junior League. He remained with Boston until 1908, when he was sold to Cleveland in 1908 for a cash consideration, and Charlie Cheek and Jack Ryan, with Cleveland Young remained until August, 1911, when he was given his unconditional release. The same week he was signed by the Boston Nationals.

Others contemplating entering the tournament are asked to notify W. W. Campbell at the club house at once.
